While the law requires us to give you this disclosure, please understand that we have, and always will, respect the privacy of your health information (PHI). There are several circumstances in which we may have to disclose your health care information.

- We may have to disclose your health information to another health care provider or a hospital if it is necessary to refer you to them for the diagnosis, assessment, or treatment of your health condition.
- We may have to disclose your health information and billing records to another party if they are potentially responsible for the payment of your services.
- We may need to use your health information within our practice for quality control or other operational purposes.
- We may need to use your personal health information such as name, address, email or phone number to contact you with appointment reminders.

We have a more complete notice that provides a detailed description of how your health information may be used or disclosed. You have the right to review that notice before you sign this consent form (164.520). We reserve the right to change our privacy practices as described in that notice. If we make a change to our privacy practices, we will notify you in writing when you come in for treatment or by mail. Please feel free to call us any time for a copy of our privacy notices.

Your right to limit uses or disclosures

You have the right to request that we do not disclose your health information to specific individuals, companies, or organizations. If you would like to place any restrictions on the use or disclosure of your health information, please let us know in writing. We are not required to agree to your restrictions. However, if we agree with your restrictions, the restriction is binding on us.

Your right to revoke your authorization

You may revoke your consent to us at any time; however, your revocations must be in writing. We will not be able to honor your revocation request if we have already released your health information before we receive your request to revoke your authorization. If you were required to give your authorization as a condition of obtaining insurance, the insurance company may have a right to your health information if they decide to contest any of your claims.

I have read your consent policy and agree to its terms. I am also acknowledging that I have received a copy of this notice, if I request it.

ABOUT MEDICARE CHIROPRACTIC COVERAGE

Your Medicare coverage of chiropractic care is limited. They will only pay for the chiropractic adjustment (manipulative treatment) when it meets Medicare's rules. There are three categories of Medicare services: 1) non-covered 2) always-covered, and 3) perhaps-covered.

NON-COVERED SERVICES

According to existing Medicare law, most of the available services in our office are NON-COVERED. Hopefully, the U.S. Congress will change that someday and treat Doctors of Chiropractic like all other doctors. Until then, here is a summary:

Examples of Non-Covered Services

All Services Other than Chiropractic Adjustments:

- Office Visits to evaluate and manage, re-evaluate, advise, or counsel.
- Physiotherapy such as massage, traction, electrical stimulation, neuromuscular re-education, etc.
- · X-rays, Laboratory, Supplies, Vitamins, etc.

Various Chiropractic Adjustments:

- · Non-spinal manipulation to the shoulder, arm, leg, etc.
- Maintenance Care you are stable and not making any more improvement.

This form may be reproduced

DOB:

· Wellness Care - to promote better health.

Non-covered items will appear on your insurance claim form. They will show as a Medicare Non-covered service like this: "72010—GY". The "72010" code is for an x-ray. The "-GY" means that it is not-covered, allowing your service to go through the Medicare system. After denial by Medicare, it can then go on to your other insurance. If you have Medigap insurance (also known as Medicare Secondary or Supplemental insurance) they will pay according to the terms of your contract.

ALWAYS-COVERED SERVICES

A typical example of a Medicare COVERED service is when you are injured or you are in much pain due to a bad spinal condition. You should expect Medicare to pay for your rehabilitation as long as you are improving. This phase of care is call "active treatment." It will be shown on your Medicare claim form and payment reports with your service code. For example, "98940-AT."

PERHAPS-COVERED SERVICES

Patient Name:

Your Chiropractic Adjustment must be clinically needed according to Medicare rules. If Medicare determines that your condition is not "Medically Necessary" they won't pay. If we know or believe that Medicare will not pay for your chiropractic adjustment, we will discuss this matter with you. We will also give you a special Medicare form known as the Advance Beneficiary Notice (ABN).
